Tools: VS Code, Github, Mysql.

Soft Skills: Team Management, Quick learner, Problem-Solving, Agile Methodology.

PROJECTS

InterroAI

- Developed an AI-driven platform that generates domain-specific interview questions, conducts interactive assessments, and evaluates user performance with automated scoring to aid in targeted skill improvement.
- Technologies Used:HTML,CSS, JavaScript, SQL, PHP.
- Project Link:- 🌐 interroai.com
- Github Link:- 🏠 github.com/InterroAI

SyncPad

- Developed a web application that allows users to securely create, update, and access personal notes from any device using a unique username. The system automatically stores and retrieves user notes from a cloud-hosted MySQL database, enabling cross-platform note synchronization without requiring login authentication.
- Technologies Used:HTML,CSS, JavaScript,SQL.
